TinkerWithMe

Computer Vision Explorer · Premium Course

2 live sessions · 2 hrs each · 11–15 yrs · from KES 7,000

Premium course outline **PREMIUM**

Overview

Build on the free Teachable Machine session to make a working computer-vision app.

DETAIL	
Track	AI Skills for Kids
Format	2 live sessions · 2 hrs each
Delivery	Live online (1:1 or small group) or in person, you choose when booking
Ages	11–15 yrs
Level	Intermediate → Advanced
Price	from KES 7,000
Standalone	No
Prerequisites	Teachable Machine (free)

Programme

1. **Advanced Classifiers.** Train models to sort waste (recyclable vs. landfill), identify plant species, or read hand gestures. Discuss training-data quality and bias.
2. **Real-World Application.** Build a gesture-controlled presentation (wave = next slide) or a waste-sorting advisor, and connect the classifier to a simple web app.

What they take home

🎁 Working computer-vision app they can demo

Why parents love it

“Self-driving cars see the world through computer vision. Your child just built their own version.”

How to book

Places are limited and run on scheduled dates. To book or ask a question, email **tinkerwithanne@gmail.com** with the course name (**Computer Vision Explorer**), your child's age, and your preferred dates. Prices start from the amount above and may vary with group size and materials.
